

Ernest SCHOCKAERT : Preface

Invited contributions

Yves VAN DE PEER : Molecular evolution and the incorporation of site-to-site rate variation in distance tree construction methods	5
Frédéric LE GALL, Philippe FAVREAU, Georges RICHARD, Evelyne BENOIT, Yves LETOURNEUX and Jordi MOLGO : Biodiversity of the genus <i>Conus</i> (Fleming, 1822): A rich source of bioactive peptides	17
Ole SEEHAUSEN, Jacques J.M. VAN ALPHEN and Frans WITTE : Can ancient colour polymorphisms explain why some cichlid lineages speciate rapidly under disruptive sexual selection?	43
Andrew J. GOODAY : Biodiversity of foraminifera and other protists in the deep sea: scales and patterns	61
Paper- & poster contributions	
Konjiev DESENDER and José SERRANO : A genetic comparison of Atlantic and Mediterranean populations of a saltmarsh beetle	83
Peter VERDYCK and Konjiev DESENDER : Hierarchical population genetic analysis reveals metapopulation structure in a Phytophagous Galápagos beetle	95
Dirk VEELAERT, Maarten VEROEVEREN, Peter VERHAERT, Arnold DE LOOF and Liliane SCHOOPS : Isolation and partial sequencing of a novel myotropin from the brain of the desert locust <i>Schistocerca gregaria</i> Forsk	105
Els VAN DUYSE, Peter GALBUSERA, Tine SCHENCK, Rianne PINXTEN and Marcel EENS : Estimating isolation and genetic differentiation in two Belgian populations of moorhens <i>Gallinula chloropus</i> by using minisatellite and microsatellite DNA markers	113
Anton ERVYNCK : Possibilities and limitations of the use of archaeozoological data in biogeographical analysis: a review with examples from the Benelux region	125
Konjiev DESENDER, Anton ERVYNCK and Guido TACK : Beetle diversity and historical ecology of woodlands in Flanders	139
Ann HUYSEUNE, Lukas RÜBER and Erik VERHEYEN : A single tooth replacement pattern generates diversity in the dentition in cichlids of the tribe Eretmodini, endemic to Lake Tanganyika (Teleostei: Cichlidae)	157
Anthony HERREL and Frits DE VREE : The cervical musculature in helodermatid lizards	175
Doe BARIBWEGURE and Henry DUMONT : The use of integumental pore signature in the characterisation of species of the genus <i>Thermocyclops</i> Kiefer, 1927: the case of <i>Thermocyclops emini</i> (Mrázek, 1895) (Crustacea: Copepoda: Cyclopoida)	187
Jean DELIGNE : Functional morphology and evolution of a carpenter's plane-like tool in the mandibles of termite workers (Insecta: Isoptera)	201
Alain J.-P. DE VOCHT and Ernest R. SCHOCKAERT : The anatomy and ultrastructure of the proboscis in <i>Zonorrhynchus</i> -species and implications for phylogenetic relationships within the Eukalypthorhynchia Meixner, 1928 (Platyhelminthes: Rhabdocoela)	219
Tom ARTOIS and Ernest SCHOCKAERT : Two new species of the genus <i>duplicrorhynchus</i> Schockaert & Karling, 1970, with remarks on relationships within the genus and on the duplicrorhynchinae (Platyhelminthes, Polycystididae)	235
Ronald A. JENNER : Metazoan phylogeny as a tool in evolutionary biology: current problems and discrepancies in application	245
Robert C. PETERS, Wim J.G. LOOS, Franklin BRETSCHNEIDER and Anne B. BARETTA : Electoreception in catfish: patterns from motion	263
Lieven BERVOETS and Ronny BLUST : Bioavailability of cadmium and zinc to midge larvae under natural and experimental conditions: effects of some environmental factors	269
Henry-Michel CAUCHIE, Lucien HOFFMANN and Jean-Pierre THOMÉ : Ingestion rates of <i>Daphnia magna</i> Straus (Crustacea: Branchiopoda: Anomopoda) on bacterioplankton and phytoplankton in an aerated waste stabilisation pond	285
Kristiaan D'AOÛT and Peter AERTS : The kinematics of voluntary steady swimming of hatchling and adult axolotls (<i>Ambystoma mexicanum</i> Shaw, 1789)	305
Hans VAN GOSSUM, Robby STOKS and Luc DE BRUYN : Small outdoor insectaries as a tool for lifetime studies on damselflies	317

and in Science Citation Index.

ISSN : 0777-6276

CONTENTS

H. HERLANT MEEWIS : In memoriam Jean-Jules Pasteels	135
P. DE LEY and I. VANDEBROEK : <i>Stegelletina laticollaris</i> n. sp., a second new species of the genus from Senegal (Nematoda : Cephalobidae)	139
M. LUC and A. COOMANS : Les nématodes phytoparasites du genre <i>Xiphinema</i> (Longidoridae) en Guyane et en Martinique	147
A. VANREUSEL, M. VINCX, D. VAN GANSBEKE and W. GIJSELINCK : Structural analysis of the meiobenthos communities of the shelf break area in two stations of the Gulf of Biscay (N.E. Atlantic)	185
P. MARTIN : Aquatic oligochaetes of Lake Virelles : four new species for the Belgian fauna	203
F. FIERS : A redescription of <i>Hemilaophonte janinae</i> Jakubisiak (Copepoda, Harpacticoida), a laophontid living in the gill chambers of the common spider crab	211
V. L. BELS and V. DELHEUSY : Kinematics of prey capture in iguanid lizards : comparison between <i>Anolis equestris</i> (Anolinae) and <i>Oplurus cuvieri</i> (Oplurinae)	223

Abstracts

Meeting in Brussels, 24th October 1992	235
